

The purpose of The French American Fund is to give graduate students and early mid-career researchers in international relations a unique opportunity to learn about French institutions, National Assembly and Senate, as well as the French legislative process. Fellowships in these government offices run from late January to May.

In 2018 join our exceptional events ! More on our website.

For students with an interest in foreign policy, international affairs, cultural diplomacy, political science, or international economics, the program provides a platform from which they can gain hands on experience and high level knowledge and relationships.

In Memoriam The Nohemi Gonzalez Scholarship

Special note:

The French American Fund had decided to create this scholarship in the aftermath of the November 13th, 2015 murderous terrorist attacks that claimed dozens of innocent lives in Paris.

Young American Nohemi Gonzalez was among the victims; a bright student, she was a senior studying in the Department of Design at California State University, Long Beach who traveled abroad to Paris to expand her knowledge. CSULB students are welcome to apply to this USA - France exchange program.
